Supplemental Information Disclosure Statement Pursuant to 37 C.F.R. 1.97-1.98

Mail Stop Amendment
Commissioner for Patents
P. O. Box 1450
Alexandria, Virginia 22313-1450

Dear Commissioner:

In an Information Disclosure Statement submitted on August 20, 2008, Applicant enclosed copies of opposition documents filed in four oppositions that were filed against the corresponding European patent application with identifications of the references cited in those oppositions. One such German non-patent reference is Hamm, "Diesel Exhaust Gas Odour, Project No. 636, Influence of Exhaust Gas Aftertreatment Systems and Fuels on the Exhaust Gas Odour of Directly Injecting Diesel Engines in Stationary and Non-Stationary Mode, Taking Account of the Limited and Selected Non-Limited Exhaust Gas Components, "A Final Report, Frankfort am Main: FVV, 1999, pp. 1-133."

In a subsequent paper filed September 26, 2008 responsive to the Office Action dated April 1, 2008, the undersigned referred to and enclosed a translation of certain pages of the above-identified German non-patent reference. In a Supplemental Response filed on October 14, 2008, the undersigned stated that a copy of papers from an unrelated European opposition was mistakenly enclosed with the aforesaid April 1, 2008 response instead of the translation.

Applicant is now able to provide a copy of the above-identified German non-patent reference and an English translation of pages 72-80 therein.

April 2, 2009

Please consider the cited documents and make them of record in the file of the above-identified application.

Respectfully submitted,

Date: Apr. 2, 2009
